

## **Closing of File 12-27 --- the Centreville Minihome Park**

Hello Everyone: Following my swearing in on November 6, 2012, I met with Ben Sivak, Manager of Planning for the County of Kings. At that time it was determined that responses to the county for additional information from Mr. Fisher had not yet been received (e.g., the traffic study). The planning department's request for this information had set a 5-month time frame for a response in motion. That time frame expired on December 5 and a letter was promptly sent by Mr. Sivak notifying the applicant that the file would be closed in 30-days from receipt of notice if a response was not received.

Friday the 11th of January was the last day for a possible response from the developer. No correspondence was received.

The file is now officially inactive and in the process of being closed.

The planners tell me that: "The applicant may apply again for the same proposal, or even a different proposal, but the process would start again at the beginning. This would include all of the applicable fees and the need for a new Public Information Meeting."

As your councillor I would be specifically notified of any such application and, of course, I would promptly let you know.

Please don't hesitate to be in touch if you have questions.

In the meantime, I trust there will be a few well deserved celebrations in Centreville among all the folks who did such a terrific job in demonstrating their opposition to Mr. Fisher's planned development!

I hope you will not mind my sending a similar notice along to Marie and Ross Carr and Peter Bishop as I have promised to keep them updated.

Warmest Regards for Now, Pauline
